In affiliation with the Pleasant Lake Protective Association our team of third year students from the Colby-Sawyer Institute for Community and Environment set out to complete a comprehensive lake inventory for Pleasant Lake. The inventory was created by the NH Department of Environmental Services.

Matt Urban, originally from Littleton, NH, is currently completing minors in both biology and sociology. Matt will be working with the Department of Transportation (DOT) for his internship this summer.

Laurel Kenna is a business minor from Concord, NH, and has accepted an internship with the Audubon Society of New Hampshire for this summer.

Steven Hash is a biology minor from Holyoke, MA, and will be working with the Lake Sunapee Protective Association (LSPA) in their water lab.

Carly Rademaker is a business minor from Buffalo, NY. She will be completing her internship this summer working for Urban Ecology Institute in Boston, Massachusetts.
