## Supporting Documentation for Emotional Support Animal Request

Dear Provider (Physician, Psychiatrist, Psychologist, Social Worker, Mental Health Worker):

Your patient is a student at Colby-Sawyer College (CSC) and has indicated that having an Emotional Support Animal (ESA) will be helpful in alleviating one or more of the identified symptoms or effects of the student's disability.

Colby-Sawyer College recognizes under the Fair Housing Act (FHA) the importance of emotional support animals which provide emotional support for individuals with disabilities. CSC is committed to allowing an Emotional Support Animal necessary to provide individuals with disabilities and equal opportunity to use and enjoy College housing.

A person qualifies for reasonable accommodation if: (1) The person has a documented disability and has provided the required documents to the College; (2) The animal is necessary for the person with a disability and equal opportunity to use and enjoy the College's housing; and (3) There is an identifiable relationship between the disability and the assistance the animal provides.

To consider this student's request for an accommodation, Colby-Sawyer College requires documentation from the treating and licensed clinical professional or health care provider thoroughly familiar with this student's condition and his/her functional limitations and/or restrictions. Please provide **detailed** information to help evaluate the request.

All information provided to us is kept confidential in accordance with the Family Educational Rights and Privacy Act (FERPA). ***A signed consent for the release of information should be completed by the student prior to the release of this form.***

Thank you for your assistance. Please return the completed form to:
