The time a **class starts and the day(s) that it meets** determines the examination group. For example, a class that meets on M or MW or MWF from 8:30 – 9:40 will be in exam A. Classes such as studio courses, where the class time spans more than one exam slot will have their exam time determined by the **starting** time of the class. For example, a class that meets on TR from 9:30 – 12:15 will be in exam P. Courses that have labs will meet with the exam time that corresponds with the lecture portion of the course, not the lab. Exams for session 001 hybrid courses will be scheduled according to the time that it meets in a classroom.

NOTE: Due to exam/teaching and/or room conflicts some courses will meet at special times or in different rooms. Please refer to the chart below for combined exams and/or special times/rooms.
