Residential Education

At Colby-Sawyer, all students live on campus in residence halls or college houses. The Residential Education staff has three main goals:

1. to get to know students and help connect them with the right college resources to overcome their obstacles and reach their goals.

2. to work with students to develop residential communities that are based on individual responsibility and respect for others.

3. to provide opportunities for student learning outside the classroom that contribute to the college’s learning outcomes.

Students are encouraged to visit the “Resources” section of the college’s Residential Life web pages for more information about Colby-Sawyer’s residency requirement, services and policies, opening and closing dates, and housing during college break periods.

Renter’s insurance is strongly recommended for students living in residence halls, which will cover damage to students’ belongings in the case of flood, fire, or other accidents. There are many providers available — two have requested their information be shared: GradGuard.com/learnmore and worthavegroup.com/product/college-student-insurance.

The Office of Student Success and Retention helps students identify obstacles and connects them to appropriate resources on campus. The office works with other departments to support students’ healthy development through all four years, and provides early intervention for students who encounter challenges. Particular attention is paid to the first-year students’ social, emotional and academic transition to college.

Student Success and Retention employs upper class students as Peer Mentors, matching mentors with First Year Symposium classes with the option for first-year students to receive one-on-one mentor support, if they choose. The office also guides students who need to leave, or want to return, to the college.

Student Success and Retention is located on the first floor of Colgate Hall.
